

ADITYA PUJARI

+91 9172375594 | adityapujari542@gmail.com | LinkedIn | GitHub | Pune, India

PROFILE

Hands-on experience in AWS, Linux, Docker, Jenkins, Kubernetes and CI/CD automation through academic projects. Built deployment pipelines, containerized applications and monitoring workflows. Familiar with Git, cloud deployment and Linux-based environments.

PROJECTS

IoT-based Weather Monitoring System | AWS IoT, Python, Arduino

- Integrated sensor data with AWS IoT enabling near real-time cloud monitoring
- Processed cloud data using Python scripts reducing manual monitoring effort by 40%
- Built monitoring workflow supporting continuous data updates with low latency

Nimbus AI – Multi-Agent System | Python, FastAPI, Docker, AWS, ChromaDB

- Built AI application using FastAPI and Docker for conversational workflows
- Implemented FastAPI APIs supporting conversational workflows
- Integrated ChromaDB for memory storage and contextual retrieval
- Containerized application enabling reproducible deployment environments

CI/CD Pipeline with Jenkins | Jenkins, Docker, GitHub, AWS

- Built CI/CD pipeline using Jenkins and GitHub reducing manual deployment steps by 50%
- Automated build and deployment workflows improving deployment consistency
- Containerized applications using Docker and deployed on AWS EC2 for reproducible environments

EDUCATION

Savitribai Phule Pune University

B.Tech in Computer Engineering

2022 – 2026

Pune, MH

SKILLS

Programming: Python, Shell Scripting, Bash

Cloud: AWS (EC2, IAM, S3)

DevOps Tools: Git, GitLab CI, Jenkins, Docker, Kubernetes

Kubernetes: Pods, Services, Deployments

OS: Linux, Ubuntu

Concepts: CI/CD, Containerization, Monitoring, Git Version Control

TRAINING

- Cloud & DevOps Program – Ethans Tech (NASSCOM, Wipro DICE ID)
- Modules: AWS, Docker, Linux, Git, Jenkins, CI/CD

ACHIEVEMENTS

- Hands-on experience with AWS, Docker and Jenkins through deployment projects
- Built deployment and automation projects using AWS, Docker and Jenkins
